BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The Veterans Administration (VA) provides health care to most veterans at its own facilities; however, when circumstances prevent veterans from traveling to VA facilities, VA authorizes them to obtain care from private health care providers. GAO evaluated the VA system for determining how much to pay private health care providers. Under VA reimbursement criteria, the maximum reimbursable fee for any medical procedure should be at, or above the middle of, the range of fees normally charged, but should not approach the top of the range. GAO found that: (1) of the maximum fees it reviewed, most were either above or below the range under VA criteria; (2) 23 percent of the bills it examined were for fees outside the approved range; and (3) it could not determine what the total dollar effect would be if all payments were within the criteria. GAO also found that the VA system is outdated and inadequate because VA has not: (1) updated its list of medical procedures, so clinics must determine for themselves the usual fee for such procedures; (2) recognized changes in usual fees that come about because of improved technology; (3) converted to the standard system for coding medical procedures; or (4) established a system to establish conversion factors that result in appropriate fees. In addition, GAO found that VA could improve its fee schedule system by adopting criteria used by the Medicare program and by the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). This item ships from La Vergne, TN. Paperback.
