ADVANCED MR IMAGING

Advanced MR imaging
Development of quantitative techniques for tumour
detection and characterization

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Development of quantitative techniques for tumour detection and characterization | Magnetic resonance imaging is a rapidly evolving and powerful technique, capable to noninvasively assess morphological evaluation and functional characterization of tissues. It has been successfully applied to the study of tumours, to diagnose, differentiate and guide therapy. Goal of this book is to describe imaging analysis and elaboration techniques to assess quantitative evaluations in advanced MR applications. The introduction of a quantitative...
