Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Problems in Arithmetic to Supplement the California State Text for the Seventh and Eighth Grades To make the teaching of arithmetic most effective the teacher must have her pupils work many problems besides those of the State Series arithmetic. Only by this constant drill with the arithmetical processes become fixed in the mind of the child. Accuracy, rapidity and facility in the application of the processes learned to the problems of every day life are the chief ends of instruction in arithmetic. This book of thirteen hundred problems supplies adequate material for supplementary work. From it the teacher can select such problems as fit the needs of her school. The use of the book in the hands of the pupils will be found most satisfactory; it will relieve the teacher from dictating problems or copying them on the board. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
