### ***Reviews***

*Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. From the beginning of time when people consumed milk from cows, sheep or goats, it was a nutritious and good beverage, staple, and ingredient in living well and healthy. Before the first pioneers made their way to north America, before the time of Jesus, and centuries and centuries before that, humans consumed milk from these animals around the world. Cows are the animal focused on in this book. Cows have a need for health to make healthy baby calves, and to take care of their baby. The things a healthy cow needs is fairly basic, and rather simple. The cows need another cow to make the baby cows, and sunshine, rain, fields of grass and hay, without toxins or glyphosate, or GMO genetic modified organisms. Cows need water from a pure source, not water that has been contaminated with Fluoride or other toxins like chlorine. Cows need to have a safe place to roam, raise their young, and be happy and free. Cows need barns to take shelter from the weather and to live in too. be sure to watch the video on Laurel Sobol youtube channel, and please subscribe.
