Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Transactions of the British Congress on Tuberculosis, Vol. 4: For the Prevention of Consumption The first meeting of the section was held in Marlborough Hall, adjoining the Polytechnic, Regent Street, on Tuesday, July 23rd; the President of the Section, Sir George Brown, C.B., occupied the Chair. The subject for discussion was - The Diagnosis Of Tuberculosis In Animals During Life. The discussion was opened by Professor Dewar, F.R.C.V.S., Principal of the Royal Veterinary College, Edinburgh, with the following remarks: - As time is limited, and as tuberculosis is of greatest importance to the veterinary profession as occurring in the ox, it will be advisable to confine our observation to the diagnosis of the disease in the bovine species. Having practised at a time when there was nothing to rely on to assist our diagnosis but the older clinical methods, I am able to appreciate these without failing to estimate at their true value the methods introduced subsequent to the discovery of the causal organism of the disease by Dr. Koch. Previous to that date seriousness of the affection, its contagious nature, and the extent of its spread amongst the herds of our country, were only suspected by a few, although prior to that date I had already dealt with it as an actively contagious disease.
