PLEASE NOTE: This is a key takeaways and analysis of the book and NOT the original book. Start Publishing Notes Summary, Analysis, and Review of Robert Greene s The 48 Laws of Power includes: Summary of the book A Review Analysis Key Takeaways A detailed About the Author section Preview: The 48 Laws of Power, written by Robert Greene and published in 1998, claims to offer readers the secrets to amassing power within the confines of contemporary society s rules, regulations, and norms. In the book s preface, Greene argues that, at least on the surface, the quest for power has been demonized, the end result of a culture that frowns upon those who seem too eager to get too far ahead in life. From Greene s perspective however, very little has changed in the time between the royal courts of old and the high-intensity board rooms of today; according to Greene, the people who amass the most power are those who can crush their enemies while appearing outwardly benevolent. The essence of Greene s perspective on power dynamics can be aptly summarized by President Teddy Roosevelt: Speak softly and carry a big stick.
