Brand New Book ***** Print on Demand *****.Excerpt from The Animal Kingdom: An Elementary Textbook in Zoology; Specially Classified and Arranged for the Use of Science Classes, Schools and Colleges The subject of the Natural History of Animals is in itself so interesting to children, that no persuasion will be required to induce them to read this book, or to attend to such further information or illustration as the teacher may think proper to add to the lessons herein given. It is therefore to such as have the guidance of the young, that these lines are addressed, in the hope of proving to them that this study is not merely pleasant, but useful - nay, important in the last degree. It is the sacred office of the true educator to arouse the inquiring faculties of the young mind - to develop every thought and feeling; and can this be better done than by directing the attention to the wondrous wisdom displayed in the works of Nature, and to the infinite mercy by which each animal, however lowly, lives, moves, and fulfils its purpose in...
