BIO-ORGANIC TECHNOLOGY

Khaled Shaban
Bio-organic technology

Condition: New. Publisher/Verlag: Noor Publishing | Salinization is a worldwide problem that affects the physical and chemical properties of soil, leading to the loss of crop productivity. As salt-affected soils are common in arid and semiarid climates with precipitation rates lower than evapotranspiration rates. Utilization of nitrogen at different levels and inoculation with biofertilizer led to an increase in total porosity improves soil aggregation and possible moving salt soil under irrigation water. The increasing frequency of dry periods in many...
