

Using Computers in History (Paperback)

By Sonja Cameron, S. Richardson

Palgrave USA, United States, 2005. Paperback. Condition: New. 2005 ed.. Language: English . Brand New Book. Information and communications technology is now an essential tool for the historian and for anyone engaging in historical study. Today s history workstation includes computers, modems, scanners, printers, digital cameras and a wide range of software applications to access the World Wide Web and to analyse historical sources. Sonja Cameron and Sarah Richardson provide a clear, jargon-free introduction which demystifies the computing skills needed for historical research. This step-by-step guide covers all aspects of history and computing including:- presentation: from word-processing an article which conforms to scholarly protocols to presenting a slide show- history and the World Wide Web: hints and tips on accessing and evaluating the wide range of historical material available on the internet- databases: a clear introduction which guides you through the process of creating your own database of historical sources- spreadsheets: a lucid explanation of basic quantitative methods, data analysis, graphing and charting- digitised text and images: help on analysing digitised text, creating images and web pages. The text is supported throughout by worked examples using historical sources, comprehensive illustrations, a detailed glossary and signposts to further study where appropriate. Using Computers...
