Excerpt from Geological History of Crater Lake: Crater Lake National Park The one in the United States belongs to the great volcanic field of the Northwest. Crater Lake of southern Oregon lies in the very heart of the Cascade Range, and, while it is especially attractive to the geologist on account of its remarkable geologic history, it is equally inviting to the tourist and others in search of health and pleasure by communion with the beautiful and sublime in nature. By the act of May 22, 1902, a tract around this lake having an area of acres was set aside as a national park/ According to W. G. Steel 1 the lake was first seen by white men in 18 5 3. It had long previously been known to the Indians, whose legends have contributed a name, Llao Rock, to one of the prominences of its rim. They regarded the lake with awe as an abode of the Great Spirit. Prospectors were the earliest explorers of the lake.2 The first travelers of note who visited the lake were Lord Maxwell and Mr. Bentley,...
