## OBSERVATIONS ON THE GEOGRAPHICAL COMPOSITION OF THE SUGAR GROVE FLORA (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Observations on the Geographical Composition of the Sugar Grove Flora The Sugar Grove area is one of those places which are sometimes found where the botanical interest of a large region may be said to come to a focus. -not only do the plant associations, both upland and lowland, characteristic of eastern Ohio reach their climax here as nowhere else but about one plant in eight of the native flora, nearly one hundred and twenty in all, reaches here the edge of its range. These include species stretching away in every direction, north, south, east, and west. A study of the ranges of these plants shows that the area is the key to an understanding of the plant geography of Ohio. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
