FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Ophthalmic Literature, Vol. 7: December, 1917 If it is desired to cover the ground very thoroughly it will be best to go over each number of the year and examine the particular headings under which that subject might be mentioned, For example, in looking up traumatic cataract, one might examine the list of papers on Crystalline Lens and also papers upon Injuries. The repeated titles often render accessible the essential part of a paper, the original of which would be entirely out of reach. These give (in brackets) after the author s name, the volume and page of ophthalmic literature where the title of the paper will be found, then the journal, volume and page where the translation or abstract is published.
