Survival (Book 1 of the Guardians of Vesturon), a YA Paranormal Romance Maybe I was caught between the two worlds. I was having serious trouble distinguishing fantasy from reality. While on a backpacking trip in the Great Smoky Mountain National Park, nineteen-year-old Maddie Pearce finds her world has been thrown into a vortex and is madly spinning toward the impossible. Abducted by a mad psychopath, Maddie narrowly escapes with her life. But that is only the beginning. Her mysterious rescuer introduces her to a world that Maddie has difficulty accepting as reality. Will this strikingly gorgeous stranger be the key to her future or will she return to her mundane world, scarred from her experience? Follow Maddie as she is forced to make difficult decisions that carry her to mysterious places. Excerpt? Then, unexpectedly, three brightly glowing melon-sized balls of light came soaring across the dark sky. When they were a few feet away from me, they elongated into long thin slivers. Moments later, the slivers expanded and then took form into three indistinct shapes. I kept blinking my eyes, not trusting what I was seeing. I was positive I was hallucinating. This must be what happens right before you die. Then, the indistinct shapes morphed into three men?three very tall, powerfully built men. They were identical in that they were all dressed alike?wearing black hooded cloaks that fell to their ankles. The hoods hid their faces, but I had the strangest feeling they were there to help me.
