*The very best book i actually study. It is actually writter in easy terms and never hard to understand. Your daily life period will probably be enhance when you total looking over this publication.*  
*(Edna Rolfson)*

## CARL RITTER: AN ADDRESS TO THE AMERICAN GEOGRAPHICAL AND STATISTICAL SOCIETY (CLASSIC REPRINT)

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 48 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. Excerpt from Carl Ritter: An Address to the American Geographical and Statistical Society You will agree with me, gentlemen, when I say that, great and well deserved as is Bitters reputation in this country, it is - as all great reputations, indeed, but perhaps more so than usual - one resting upon authority. It is, if I may be allowed the expression, an imported one and this, indeed, is not surprising; and we could scarcely speak otherwise of England, and still more of France. Bitters theoretical ideas and methods are to be taken from a few academic memoirs, but more especially from his great work itself. There we find them realized in the rich, concrete forms of life. They never have been reduced by him into a regular abstract system or doctrine, a form altogether uncongenial to a mind which was so thoroughly filled with the vivid images of nature. These channels, together with his suggestive lectures to thousands of students during the long period of his public teaching, were sufficient to spread his spirit in Germany. But they are not so for foreign countries. The original memoirs just mentioned, though since published separately, are not of easy access. The very bulk of his main work has prevented, thus far, a translation of it into foreign languages, except, strange to say, one into the Russian, and a very partial one into the French. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy....
