AUTHORHOUSE, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this book the reader is told that the unjust gap between the rich and the poor leading to social injustice in Cameroon and the world results from elite globalization and the reliance on the concept of sharing the National cake. The idea of baking the cake collectively and sharing it in an equitable manner so that everyone has a fair share is not known by the political and administrative culture. Consequently, Cameroonians spend more time talking about their share of the national cake instead of how to make the cake. The underlying principle of governance in Cameroon is best captured in the clause national cake. Call it public resources. Should the cake owned by everybody be baked or shared? Many politicians and administrators get lost amidst the intricacies of power and the grandeur that comes with it and feel that the national cake is only to be shared. They forget that they had made promises prior to their appointments and regard the civil service as an end rather than a means to an end. Money to them is the defining value and the primary mediator of relationships among persons and institutions. Ideals of equity are out the window and at the national and local levels, governments and citizens alike have become economic beggars and a consumer-nation has been created. Beggars don't create jobs; they take from those who have. Nothing paralyzes a nation like citizens who lack a sense of mission for their country. In my opinion, Cameroonians should spend less time on politicking and more on constructive endeavors. They should be challenged, activated, motivated and transformed into nation builders or bakers of the national cake that will be equitably shared....
