COMMANDERS HANDBOOK FOR PERSISTENT SURVEILLANCE

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 104 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. This handbook provides pre-doctrinal guidance on the planning, execution, and assessment of joint integrated persistent surveillance (JIPS) by a joint task force (JTF) and its components. Significant prior work has been done in support of persistent intelligence, surveillance, and reconnaissance (ISR) and much of the information in this handbook was gleaned from that data. However, the scope of this handbook pertains to the subset of persistent surveillance: the processes which contribute to creating a persistent surveillance strategy and those required for executing persistent surveillance missions. The document serves as a bridge between current best practices in the field and incorporation of value-added ideas in joint doctrine. This handbook draws on current doctrine, useful results from relevant studies and experimentation, and recognized best practices. It presents some challenges of persistent surveillance to include capability gaps and some potential solutions to these shortfalls, especially in the areas of planning and preparation, managing requirements and tasking, visualization and tracking, and assessment of persistent surveillance missions. It also offers some considerations for the future development of JIPS-related joint doctrine, training, materiel (logistics), leadership education, personnel, facility planning, and policy (DOTMLPF-P). This handbook is based on joint lessons and Service learned data; joint, multinational, and Service doctrine and procedures; training and education material from CAPSTONE, KEYSTONE, and PINNACLE senior executive education programs; joint and Service exercise observations, facilitated after-action reviews and commanders summary reports; related joint concepts; experimentation results; joint exercises and trip reports; joint publication assessment reports; research from advanced concept joint capability technology development projects and capability development documentation for acquisition programs, and DOTMLPF-P change recommendations. This handbook also includes the results of a two-year analysis and experimentation effort conducted by Joint Doctrine Support Division...
