Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1866 Excerpt: . . . metallic frame for lateral curvature, which may be extemporized. a a. Two uprights of hoop iron, or, better, of thin steel. bb. Base of copper, tin, or sheet iron, reaching two-thirds around the pelvis, to which the uprights are attached. cc. Two pieces of hoop iron, or of thin steel, for the side on which the shoulder is elevated, d. A thinner and narrower piece of steel, to pass under the armpit of the depressed shoulder. This is movable at the rivet attaching it to the uprights, and upon the distal end is attached an elastic strap, which passes up in front and over upon the prominent shoulder, and down to a buckle attached to the base bb, in order to make the lift under the depressed shoulder, and the weight upon the opposite elevated shoulder balance each other, e. A strip of hoop iron (or...

### Reviews

*This is basically the best pdf i have read through until now. It is filled with knowledge and wisdom I am easily can get a enjoyment of studying a created book.*

-- **Dr. Carmine Hayes MD**

*The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Mrs. Josiane Collins**
