Ebury Publishing, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book. In his seminal book *Life After Life*, Dr Raymond Moody introduced the near-death experience (NDE) to the world, sharing the true stories of those who have returned from the brink of death. In this stunning sequel, Dr Moody returns to the area in which he made his name and provides compelling new evidence that NDEs are not the mere biological products of brains in the process of shutting down. Here, he shares the eyewitness accounts of those who have shared the experiences of the dying: the empathic death experiences that occur when those gathered at the bedsides of the dying have their own visions of the afterlife. Brimming with case studies and drawing upon a lifetime s research as well as recent findings, this important book will change the way we think about life and death. As the baby-boomer generation begins to lose those they love, and international scientific research continues in this area, Dr Raymond Moody s book could not be more timely.
