Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Stamp collecting is perhaps the greatest opportunity right now, of any collectibles. This is a must read if you are not sure stamps are right for you to get involved with! Why stamps are an incredible opportunity and how you can cash in on it is all laid out in this affordable guide! This isn't a get rich quick scheme or system. The basics of stamp collecting and the types of stamps are covered. For years this author has passed up stamps. Dismissed them as nothing serious. In all honesty, they seemed boring. It wasn't until I acquired some rare stamps through a trade with a dealer that I started realizing and appreciating the remarkable thing they are. Each one not only tells a history and bears witness to our heritage, but they are perhaps the most widely accessible forms of collectible art: Each stamp is limited in its edition, and each is unique to its condition and its cancellations. All that it takes to strike it rich is to have an oddity that no one else has. Very much detail and work goes into engraving the plates that printed the stamps, so it is no wonder they were always very desirable. Now, There is a decline in stamp collecting for various reasons. This book explains why this provides a remarkable once in a lifetime opportunity to get started with stamps. How you can get started, and why you should seriously consider them. The author even explains what made him see the light and convert from being only interested in coins and other such non paper collectibles, to becoming heavily involved in stamps! The book offers new insight..
