

The Truth Machine: The Blockchain and the Future of Everything (Paperback)

By Michael J. Casey, Paul Vigna

HarperCollins Publishers, United Kingdom, 2018. Paperback. Condition: New. Language: N/A. Brand New Book. From the authors of the fascinating *The Age of Cryptocurrency*, comes the definitive work on the Internet's next big thing: the blockchain. Many of the legacy systems once designed to make our lives easier and our economy more efficient are no longer up to the task; big banks have grown more entrenched, privacy exists only until the next hack, and credit card fraud has become a fact of life. However, there is a way past all this—a new kind of operating system with the potential to revolutionise our economy: the blockchain. In *The Truth Machine*, Michael J. Casey and Paul Vigna demystify the blockchain and explain why it can restore personal control over our data, assets, and identities; grant billions of excluded people access to the global economy; and shift the balance of power to revive society's faith in itself. They reveal the empowerment possible when self-interested middlemen give way to the transparency of the blockchain, while highlighting the job losses, assertion of special interests, and threat to social cohesion that will accompany this shift. With a balanced perspective, Casey and Vigna show why we...
