

Publication Volume 24

By Michigan Geological Survey

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: .Afton, Cheboygan county, Petoskey and Bay Shore, Emmet county, and near Omer, Arenac county, in the Southern Peninsula. Most of the exposures are in the northern part of the state relatively distant from ready markets. This makes it difficult for the Michigan burners to compete in the southern more populous portion of the state with lime producers in northern Ohio, Indiana, and Illinois, situated near cheap coal fuel supplies. Concrete mortar is more easily and rapidly handled than stone and lime mortar and has largely displaced these materials in the building trades. For similar reasons gypsum wall plasters and plaster board have largely displaced sand-lime mortar for plastering. Much of the lime produced is of the hot variety but considerable mild magnesian lime is burned at Manistique, Marblehead, . Petoskey and Bay Shore. Hydrated lime is produced at Afton, and Manistique. The total production in 1916...
