Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Division of Research Services, Fy 1989 Annual Report The support of the nih Biotechnology Unit (pilot Plant) continues by providing ongoing assistance and incorporating new systems and equipment for data acquisition, process control, and data analysis for production and fermentation research. New research vessels are being acquired for support of the Protein Expression Laboratory and data acquisition and control systems, similar to the ones that have been in use for several years with the 5 and 10 liter research systems. We are upgrading existing programs to incorporate real-time calculation of growth parameters, to supply additional controls, and to record data from instruments newly added to the system. The Section is continuing to improve and expand the computer-based eye-tracking system built for the National Institute of Mental Health (nimh). In addition to the initial purpose of testing schizophrenics, and more recently the family members of schizophrenics, the system is being used to study the effects of aids on the ability to track moving targets. There are now two labs in the nimh that are using these systems, as well as...
