Excerpt from Improvement Era, Vol. 11: Organ of the Seventy and Young Men s Mutual Improvement Associations In a previous article we considered more particularly the history and value of certain historical and alleged scripture writings, which, because of their uncertain origin and authority, have been excluded from the several canons of Sacred Writ. Many of these writings, however, were read in the public services of the early Church, and in addition were largely quoted from by the ancient Fathers in their theological discussions and treatises. They became, however, early corrupted by both intentional and unintentional omissions and interpolations; and to such an extent was this carried, that they are called the Apocryphal, or doubtful, Scriptures. Many authorities consider them to be absolutely spurious. Modern revelation reveals to the Latter-day Saints the fact that whilst there are many things contained therein [the Apocrypha] that are true, and it is mostly translated correctly; there are many things contained therein that are not true, which are interpolations by...
