ENERGY USE EFFICIENCY IN DRYLAND AGRICULTURE

2009. Hardcover. Book Condition: New. 288 While energy is a crucial input in the process of crop production, use of more and efficient energy facilitates life and helps mankind making it comfortable. This book is based on the outcome of the doctoral study aimed to investigate the use of energy and its efficiency in rural areas particularly dryland agriculture in Tamil Nadu. It covers a cross-section analysis of four categories of farmers (marginal, small, medium and large), two major pattern...

Reviews

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
