Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Apple s products are known for their ease of use. However, a user needs a little guidance to get started or pointed in the right direction. This is where my guide comes in. I have taught many students, teachers and clients on how to navigate the Macintosh interface and the software they are using. If you want to learn how to use Parental Controls for your little ones, not sure if MobileMe is worth the extra expense or just want to learn about the best personal computer in the Universe - this book provides the answers! The second section deals with iLife 11. If you never used iMovie, iPhoto, iDVD or are curious about Garageband - I highlight what every user should know to become a power user in no time!!!!.
