SIMON SCHUSTER, United States, 2002. Paperback. Condition: New. Reissued.. Language: English . Brand New Book. Is today s fast-paced media culture creating a toxic environment for our children s brains? In this landmark, bestselling assessment tracing the roots of America s escalating crisis in education, Jane M. Healy, Ph.D., examines how television, video games, and other components of popular culture compromise our children s ability to concentrate and to absorb and analyze information. Drawing on neuropsychological research and an analysis of current educational practices, Healy presents in clear, understandable language: -- How growing brains are physically shaped by experience -- Why television programs -- even supposedly educational shows like Sesame Street -- develop habits of mind that place children at a disadvantage in school -- Why increasing numbers of children are diagnosed with attention deficit disorder -- How parents and teachers can make a critical difference by making children good learners from the day they are born.
