Springer. Paperback. Book Condition: New. Paperback. 290 pages. Dimensions: 9.4in. x 6.1in. x 0.7in. The seventh German Conference on Multi-Agent System Technologies (MATES 2009) took place in Hamburg, Germany, during September 9-11, 2009, and was colocated with the tenth International Workshop on Computational Logic in Multi-Agent Systems (CLIMA X) and the Fifth International Workshop on Modelling of Objects, Components, and Agents (MOCA 2009). MATES 2009 was organized by the German Gesellschaft für Informatik (GI) Special Interest Groups on Distributed Artificial Intelligence and Communication and Distributed Systems in cooperation with the Steering Committee of MATES. One main aim of the MATES conference series consists in bringing together researchers from around the world and providing a fruitful discussion basis for exchanging ideas and sharing the newest scientific results. Since its inception in 2003, MATES has been colocated with mainstream software engineering conferences like the Net. ObjectDays as well as with the German Artificial Intelligence Conference (KI) and has thus strived to address the full range of agent research topics ranging from practical applications and tools for agent technology to the theoretical foundations of multi-agent systems. In addition to the broad range of topics covered by MATES, in recent years special areas of interest (hot topics) within the field of multi-agent systems have also been identified and have influenced the conference editions. In 2009 the focus was laid on complex, adaptive systems and phenomena of self-organization. The international Program Committee for MATES 2009 carefully selected among 44 submissions from all over the world 14 to be presented as full papers, 10 to be presented as short papers and finally also 10 exhibition papers. Besides the regular paper presentations, the exhibition papers also included a live software demonstration at the conference venue. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
