By William J Moenkhaus

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Effects of Inbreeding and Selection on the Fertility, Vigor and Sex Ratio of *Drosophila Ampelophila* For Vivaria, tall slender dishes, tumblers, quinine bottles and lamp chimneys were given a trial. They were discarded in favor of 8-dram shell Vials. These were compact, so that a large number of matings could be kept in a small space, and they were most convenient in manipulating the pairs during the frequent changes to new cages that was necessary all along. The open end of the shell Vial was closed with a plug of absorbent cotton, not too compact, so as to afford some ventilation. The vials are strongly positive to light, so that the Vials could be laid with their bottom toward the light and the cotton plug removed with safety for the introduction of food etc. Small trays holding fifteen of these Vials were used and in this way the experiments could be readily and compactly stored in the incubator, or they could be packed into a valise to be taken along wherever I went. The food was exclusively well -...
