

## Astronautics and Aeronautics, 1965: Chronology on Science, Technology, and Policy

By National Aeronautics and Space Administration

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 690 pages. Dimensions: 10.0in. x 7.0in. x 1.6in. This chronology is designed to collect in preliminary form pertinent information on aeronautical and space affairs. Future historical research and narratives will of course deepen the process of documentation and enrich perspective on the high velocity of contemporary science and technology, as well as their impact and implications. The volume was prepared from open public sources to provide a reference for future historians and other analysts, scholars, students, and writers. Its detailed index was intended to provide ready access to most specialized needs. The year 1965 recounted by this volume was an outstanding one in the U. S. space program. In his space report to Congress, President Johnson called it the most successful year in our history. It was one filled with noteworthy milestones deriving from less noticed decisions, actions, and labors of previous years. In the same way, milestones of the future are to be seen in their formative stages in this chronology for 1965. In addition to NASA-related events the chronology gives some of the impact on the American scene of the space effort, including critical...
