

Hydroponics Photo Album

By Howard M. Resh

Taylor Francis Inc, United States, 2012. CD-ROM. Condition: New. Language: English . Brand New. This CD offers readers beautiful photographs of produce that were grown hydroponically without getting into the technical aspects of the science. A companion to Hydroponic Food Production, it covers the outcome of hydroponic growing techniques, without focusing on the science. The principle covered crops include tomatoes, peppers, cucumbers, eggplants, lettuce, arugula, bok choy, herbs, watercress, and microgreens. Examples are given of some very unique futuristic applications of hydroponics in vertical systems, rooftop gardens, and resorts. Finally, some personal photos of colleagues actively working in hydroponics at universities and in the coordination of conferences and courses.

Reviews

Excellent e-book and useful one. It is written in straightforward phrases rather than confusing. I am just very happy to explain how here is the finest publication I have got read through in my very own lifestyle and might be the greatest book for possibly.

I just started out reading this ebook. We have read and so I am certain that I am going to go back and study yet again in the future. I found out this book from my dad and I encouraged this publication to find out.
