

How to Build a Skydeck (Paperback)

By David L Bradley

Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Ever wonder if our species development is guided by a greater intelligence? Or if your goofy-looking neighbor is really an alien on an assignment of global scale? How much soul should one be willing to swap for a little comfort? Who wants to trade for a baloney sandwich? Stan Davis ponders this and more throughout his day as a white laborer on an all-black crew in the Deep South. Shoved from the nest at 19, the bright but indolent son of luxury struggles to make his way in a world of country clubs, convenience stores, topless bars and trailer parks. How to Build a Skydeck is a pre-Digital Age tale of black and white, rich and poor, pot-smokin aliens, angels and God. Despite the irreverent setting and blue-collar characters, this very human, deeply thoughtful and occasionally sarcastic tale will forever change how you think about the origin and destiny of humankind.
