McGraw-Hill Education - Europe. Hardback. Book Condition: new. BRAND NEW, Manufacturing Planning and Control Systems for Supply Chain Management: The Definitive Guide for Professionals (5th Revised edition), Thomas E. Vollmann, William Lee Berry, D. Clay Whybark, F. Robert Jacobs, This book is the standard preparatory text for APICS certification exams! It discusses how to use the latest MPC techniques to improve your supply chain effectiveness. In today's manufacturing environment, decisions must be made immediately and with little time for on-the-spot research or second-guessing. More than at any time in the past, professionals must rethink virtually every aspect of this streamlined manufacturing approach - or risk being left behind in the newly urgent race to both cut costs and reduce time. "Manufacturing Planning and Control Systems for Supply Chain Management, Fifth Edition" provides the information and analysis you need to remain both current and competitive. Completely revised and updated, this authoritative and essential book covers the new and existing state-of-the-manufacturing-art in areas including: Supply chain management; Demand management; Sales and operations planning; Material requirements planning (MRP); Enterprise resource planning (ERP); Production activity control; Inventory management; and, Capacity planning and utilization. The customer is king in today's manufacturing environment, and meeting customer...
