Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Health Work in the Schools Educational hygiene has four chief divisions: (1) The Hygiene of Physical and Mental Growth; (2) Health Supervision in the Schools, including methods of health observation and teaching; (3) the Hygiene of Instruction; and (4) the Hygiene of the School Plant. The first of these divisions has been treated by one of the authors of this book in The Hygiene of the School Child, which has appeared as an earlier number of this Series, and the third, by the same author, is in preparation. The fourth division is to be covered by another author, and is also in preparation. The present volume deals with the problems involved in health supervision, health examination, and hygiene teaching, in other words, with the second of the above divisions; and it is hoped that it will contribute materially to the standardization of health supervision and to the broadening of its scope. Every one must realize that a great amount of what goes by the name of medical inspection of schools can be called health work only by courtesy. All along the line, among superintendents, teachers, school nurses, school boards, and even school doctors, education is needed which will lend a broader vision to the purpose and possibilities of genuine health supervision. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
