

## Trekking the Big Picture (Paperback)

By Andrew Lohrey

Rishi Publishing, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Whatever our circumstances, life is a journey into meaning, a trek through the big picture. Many of the dominant ideas in our culture are dead-ends or detours on that voyage home. We can get lost in false notions of what science means, of what God is and the burdens of individual destiny. In this unusual book Andrew Lohrey explores the contemporary nexus of philosophy, science and spirituality. In the codes and structures of meaning he locates the latitude and longitude of consciousness itself. In doing so he takes studies in the meaning of meaning in new directions and leads the reader towards an understanding that spirit is meaning. Far from being a dimension separate from being or knowledge, meaning/spirit is the universal ocean within which all phenomena exist. A great strength of the book is the manner of its telling. Through a voice that develops a web of connections between personal anecdote and theory the reader is led to the conclusion that their individual mind is a unique part of the One cosmic consciousness.
