When those trials linger on and if we don't guard against it, we can find ourselves succumbing to bitterness or even despair. But what if there is purpose in those trials? What if the experiences of those trials prepares us for something more? What if those experiences or circumstances put us in a position that better enables us to help others? If you find yourself curious about such possibilities, then you'll find Tacee's story both inspiring and uplifting as she shares her journey in discovering purpose in her challenges, especially those associated with cerebral palsy, and how she has come to realize the blessings that can blossom from those challenges.
