

The Canadian Journal of Medicine and Surgery, Vol. 6: Toronto, July, 1899 (Classic Reprint)

By Unknown Author

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Canadian Journal of Medicine and Surgery, Vol. 6: Toronto, July, 1899 The sources of the material are as follows: Suspected exudates have been received from 45 municipalities (in nine municipalities all the physicians send through the medical health officer); suspected tuberculous sputum, from 94 municipalities and 115 physicians; typhoid blood, 11 municipalities and 18 physicians. The work in the examination of sputum has shown a very marked increase, which seems to be continuing. By months the specimens of sputum have been as follows: January, 41; February, 51; March, 59; April, 67; May, 74. This makes for the first five months of the year almost as many specimens as during the whole of last year. For the first four months the total specimens were as follows: Sputum, 218 (with these I received 138 history cards); diphtheria, 202 specimens (for which I received 123 history cards); typhoid blood, 26 samples (for which I received 14 history cards); water samples - bacteriological, 13; chemical, 16; miscellaneous examinations, 51; total for first four months, 526. The largest number...
