

Studies on Continuous Transmission Frequency Modulated Sonar (Classic Reprint) (Paperback)

By Frank J Hester

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Studies on Continuous Transmission Frequency Modulated Sonar A continuous-transmission sonar with very fine echo frequency discrimination was designed and constructed to study Doppler effects caused by the motion of fish as they relate to fish size and swimming characteristics. Although the equipment performed as theory predicted, difficulties with sea noise and trouble in maintaining contact with fish schools showed that. Commercial application of this approach is unsuitable without considerable additional development work. These problems and some results are discussed, and notes on target-strength measurements of several Species of fishes are included in this report. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
