Fertility Parameters Through
Artificial Insemination in
Guinea Fowl

LAP Lambert Academic Publishing Aug 2016, 2016. Taschenbuch. Book Condition: Neu. 220x150x8 mm. Neuware - Guinea Fowl (*Numida meleagris*) are domesticated mainly for its meat and egg. However the fertility and hatchability percentages were low, leading to reproductive wastage and slow genetic improvement in the natural mating system. Different protocols of artificial insemination were attempted in this work, where the maximum fertility of 95 % were observed in the birds inseminated with 100 million spermatozoa in Beltsville poultry semen extender,...

Reviews

I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Jensen Bins**

This pdf might be really worth a go through, and far better than other. It can be packed with wisdom and knowledge. It's been written in an exceedingly straightforward way and is particularly only soon after I finished reading through this pdf by which basically changed me, modify the way in my opinion.

-- **Earnestine Blanda**

Absolutely among the finest publication I actually have actually go through. It really is rally fascinating through reading time. I am easily could possibly get a pleasure of looking at a composed ebook.
