

Deep Learning: Practical Neural Networks with Java (Paperback)

By Yusuke Sugomori, Bostjan Kaluza, Fabio M. Soares

Packt Publishing Limited, United Kingdom, 2017. Paperback. Condition: New. Language: English. Brand New Book ****** Print on Demand ******. Build and run intelligent applications by leveraging key Java machine learning libraries About This Book * Develop a sound strategy to solve predictive modelling problems using the most popular machine learning Java libraries. * Explore a broad variety of data processing, machine learning, and natural language processing through diagrams, source code, and real-world applications * This step-by-step guide will help you solve real-world problems and links neural network theory to their application Who This Book Is For This course is intended for data scientists and Java developers who want to dive into the exciting world of deep learning. It will get you up and running quickly and provide you with the skills you need to successfully create, customize, and deploy machine learning applications in real life. What You Will Learn * Get a practical deep dive into machine learning and deep learning algorithms * Explore neural networks using some of the most popular Deep Learning frameworks * Dive into Deep Belief Nets and Stacked Denoising Autoencoders algorithms * Apply machine learning to fraud, anomaly, and outlier detection * Experiment with deep...

Reviews

Thorough information! Its such a excellent read. It is really simplistic but unexpected situations within the fifty percent of your pdf. Once you begin to read the book, it is extremely difficult to leave it before concluding.
