By Bruce W Pixley

Createspace, United States, 2014. Paperback. Book Condition: New. 234 x 190 mm. Language: English . Brand New Book ***** Print on Demand *****.The Report Writing Handbook for the Computer Forensic Examiner is intended to be the student manual in a formal law enforcement report writing class, which is geared for computer forensic examiners who are tasked with writing an expert witness report and may be called to testify in trial. It starts off by laying the foundation of expert witness report writing. It demonstrates the difference between electronic discovery productions and writing an expert forensic report. The forensic report not only contains the basics that should be in any report, but also the expert s opinions, which are based on factual objective findings. This book contains the following sections: Starting Your Analysis There are many ways to start the analysis and this section provides some structure to help quickly triage the analysis. By walking the path, the examiner can quickly pick up on how a person used the computer, which provides direction for follow-up analysis. Use of virtual environment software, such as VMware, can be an extremely valuable aid during the analysis and for providing a demonstrative exhibit. Case Study...
