Yawls shall be rated at 93 per cent., and schooners at 90 per cent., of their measurement as determined from the above formula. Measurements shall be made in accordance with the provisions of this rule. Before being measured, a yacht must have a load water-line plane established and permanently marked at bow and stern and on each side of the yacht near the point of greatest breadth. This plane shall be, as nearly as practicable, the plane of flotation when in racing trim. Each side mark shall consist of two equal equilateral triangles, whose apices touch at the established plane of flotation and whose bases are parallel to such plane. The total vertical height of each side mark shall be one two-hundredth (20) of the load water-line length. The bow and stern marks shall be four (4) inches long and two (2) inches in...
