RESPONSE THRESHOLD BASED TASK ALLOCATION IN MULTI-AGENT SYSTEMS: PERFORMING CONCURRENT BENEFIT TASKS WITH LIMITED INFORMATION (PAPERBACK)

Nikolaus Correll DBA Magellan Scientific, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Collaborative processes in insect colonies such as foraging, scouting for food, and colony defense involve some form of task allocation among individual agents. This dissertation presents a novel response threshold based strategy for task allocation in multi-agent systems. It proves, using a well known result from the theory of global games, that under the constraints of imperfect knowledge of...

Reviews

I actually started off looking over this publication. I have read through and so i am certain that i am going to likely to study again yet again later on. I am easily will get a delight of reading a written pdf.

-- **Ross Hermann**

This ebook may be worth a go through, and superior to other. I could comprehended every thing out of this published e pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Prof. Damien Schuster PhD**

This is basically the greatest pdf i have got go through right up until now. It normally fails to cost excessive. Once you begin to read the book, it is extremely difficult to leave it before concluding.
