iUniverse, United States, 2003. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Understand the nature of your mind and exactly how it interacts with matter at the quantum level to produce manifestations, magick and miracles. Learn the nature of the universe in which we live and the exact process by which you can change your destiny by mere faith and imagination. Understand how modern physics demonstrates the absolute immortality of your consciousness, your mind, your spirit. The Universe and Multiple Reality presents a viewpoint dramatically different from the currently fashionable scientific interpretation of modern physics, an interpretation that denies the most important part of recent scientific discoveries: the mind and its effect on reality. The Universe and Multiple Reality explains the exact physical processes by which paranormal events operate, including how miracles, magick and manifesting occur. This book is a must for any person curious about the place their mind occupies in the cosmic scheme of things. The Universe and Multiple Reality breaks new ground. There are a great many books on parallel universes, on quantum physics and multiple reality--but none that proffers an understandable theory on how the human mind interacts with multiple realities at the quantum level to produce palpable physical effects.
