Brand New Book ***** Print on Demand *****.Excerpt from Successful Teaching in Rural Schools If our American public school system is to provide adequately for the education of all boys and girls, the rural schools of the United States must be improved. It is important in the consideration of this problem that we discuss methods of finance and of administration. It is even more important that well-trained teachers be placed in every classroom, and that those already at work in rural schools grow increasingly more efficient. In this volume the author has presented to rural school-teachers a record of achievement by a group of rural school-teachers which is not only enlightening but inspiring. The book could not have been written by one who approached the problem as a theorist. It is out of a rich experience in achieving the ideals set forth, that Dr. Pittman has written to the rural school-teachers of the United States. Successful Teaching in Rural Schools meets the standard set for the American Education Series because it contributes directly to the improvement of the practice of those who work in rural schools. It is confessedly a book which grows out of the optimism and enthusiasm of one who has found it possible to help rural schoolteachers to achieve success. The author has most fortunately used the letter written by one teacher to another as the form of presenting his contribution.
