Filesize: 7.4 MB

Reviews

*If you need to adding benefit, a must buy book. It normally fails to cost a lot of. Its been designed in an extremely easy way in fact it is just right after i finished reading through this ebook by which basically transformed me, change the way i believe.
(Vernon Ritchie)*

THE FUTURE OF MEMORIES

Peachpit Press, 2006. Softcover. Condition: Neu. Neu - There are plenty of books out there that tell you how to create great images using digital cameras and Photoshop Elements. But great images do not equal great stories--and nobody knows this better than author Dane Howard, who draws on his years of professional experience to demonstrate how you can use everyday technology to share your stories in dramatic new ways. By focusing on the tale rather than the technology, Dane provides the tactical and practical advice you need to create a compelling narrative through digital images. In the end, the story--not the tools--dictates the process, and at each step along the way Dane urges you to ask the right questions, set up your shots, organize your images, and use your tools in a way that will advance your stories. With complete coverage of all of today's photo-sharing mediums (including photoblogging, mobile devices, image-sharing sites, and more), this colorful, creative guide shows users you how to build visually rich narratives to share with family and friends. 235 pp. Englisch.
