Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from National Reservoir Inundation Study Research at Round Spring and Alley Spring: Ozark National Scenic Riverways Water and Power Resources Service, Soil Conservation Service and the National Park Service. Focus for the study is the examination of sites prior to inundation, while flooded, and during periods of drawdown in order to assess the impacts on: data retrieval potential; the degree of preservation or destruction of archeological remains; and the efficacy of salvage Operations versus direct protective measures. Laboratory experimental research and a reservoir modelling program are also being employed in the study. The long range goal of the project is the development of a management-oriented document which will contain predictive models for anticipating impacts of inundation and a discussion of methods of site protection and preservation.
