MATHEMATICAL FINANCE

Alphascript Publishing Feb 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Mathematical finance comprises the branches of applied mathematics concerned with the financial markets. The subject has a close relationship with the discipline of financial economics, which is concerned with much of the underlying theory. Generally, mathematical finance will derive, and extend, the mathematical or numerical models suggested by financial economics. Thus, for example, while a financial economist might study the structural reasons why a company may have a certain share price,...
