Springer. Paperback. Condition: New. 298 pages. Dimensions: 9.6in. x 6.1in. x 0.8in. The 10th International Symposium on Database Programming Languages, DBPL 2005, was held in Trondheim, Norway in August 2005. DBPL 2005 was one of 11 meetings to be co-located with VLDB (the International Conference on Very Large Data Bases). DBPL continues to present the very best work at the intersection of database and programming language research. DBPL 2005 accepted 17 papers out of a total of 63 submissions; an acceptance rate of 27. Every submission was reviewed by at least three members of the program committee. In addition, the program committee sought the opinion of 51 additional referees, selected because of their expertise on particular topics. The final selection of papers was made during the last week of June. All authors of accepted papers submitted corrected versions, which were collected in an informal proceedings and distributed to the attendees of DBPL 2005. As is traditional for DBPL, this volume was produced after the meeting and authors were able to make improvements to their papers following discussions and feedback at the meeting. The invited lecture at DBPL 2005 was given by Giuseppe Castagna entitled Patterns and Types for Querying XML Documents; an extended version of the lecture appears in this volume. Given the topic of this invited lecture, we invited all attendees of the Third International XML Database Symposium (XSym 2005), also co-located with VLDB, to attend. Continuing this collaboration, we organized with the co-chairs...

Reviews

Absolutely one of the best books I have ever studied. It is actually written in simple terms rather than confusing. I realized this PDF from my dad and I suggested this PDF to understand.

-- Garry Quigley

This sort of PDF is everything and made me hunting forward and a lot more. It is packed with knowledge and wisdom I am just happy to inform you that this is the greatest eBook I have studied within my own existence and might be the very best eBook for actually.
