Really liked it. I've gotta go back now and read the first one. - Molly S. I'm not really a military or war guy but I did really get into this. I like the idea of an Internet hacker out there that is more dangerous than many nation states. - John P. Although I'm a reader, I was skeptical as a friend gave this to me. I'm sold! I'll read anything Roger Ellis writes from now on! - Jack G. I start to read probably four or five books a week as a review for Amazon's Vine program. I usually stop reading three or four of them because they're so bad. This book is different. It's great. I highly recommend it. - Jackie S. If you're not convinced go and read the first chapters over at his webpage [RogerEllis.biz]. You can tell he's written in Hollywood for many years. He gets to the point quickly and moves on. - Marvin N. If you don't like this book you don't like action and adventure. - Terry S. I don't read very much but I sure plan on reading more after this book. Can't wait for...
