

Vital and Monetary Losses Due to Preventable Deaths (Classic Reprint) (Paperback)

By C H Forsyth

Forgotten Books, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Vital and Monetary Losses Due to Preventable Deaths The purpose of this paper is to set forth the results of a statistical investigation of the vital and monetary losses in this country due to the occurrence of preventable deaths; to show (a) to what extent the average length of human life is affected by the occurrence of such deaths; (b) the effect on the expectation of life, or average future life time, at any age; (c) the effect on the death rate, at any age; (d) how great a monetary loss is sustained through such a death, assuming that the life of every person has a value, or that during the most productive period of his life - say from the age of twenty to seventy years - every person contributes some thing annually to the wealth of the community in which he lives; and (e) the total value of these losses, estimated for each age for both males and females, for the whole country. We have obtained the results set forth in this paper through the comparison...
